***CDSF Motion RE: WDSF/CA continental offices/servis centers***

***MOVED***, that ***the continental WDSF/CA office*** be set up as the common office of WDSF and its CA on the relevant continent.

### **Explanation:**

Expected development of the world of dancesport will need new services closer to continental and regional sport structures. The vision of WDSF has to be changed into the world coordination body and more and more services will go to the lower level, closer to the national member bodies and athletes.

Continental offices could be open in a „cheaper“ regions as continental service centers and give the chance such a countries to be the more useful part of the CAs and WDSF and save finances for the new services.

Czech DanceSport Federation can help in this procedure and is able to offer such a „continental office/service center“ as a pilot project for WDSF and other CAs.
